

Seventy-two hours *before the world reacts.*

synARKa is the Indo-Pacific Sovereign Sense Engine — satellite, eight-engine AI consensus and twenty-five years of corridor knowledge, fused into a single sourced, decision-ready brief. Across mining, government, **defence**, agriculture and infrastructure, buyers are drowning in feeds, dashboards and satellite pixels — **too much data, not enough decision**. The synthesis gap is the universal pain. The answer is **insight, not pixels** — and the discipline throughout is **insight, never prediction**.

PROOF, NOT PROMISES — EVERY NUMBER SOURCED AND CHECKABLE

94K+ views · r/energy all-time #1 organic post · zero ad spend	5 / 6 published insights resolved correct · May 2026 · the miss published in full · insights.synarka.pro	+10.51% ASX Materials, May 2026 — the sector the ledger called · S&P DJI via Stockhead	~A\$20M+ Geelong refinery incident · ~150ML diesel — methodology illustration of what the unwatched corridor costs
--	--	--	--

WHAT SYNARKA IS — THREE LAYERS, ONE ANSWER

LAYER 01 · EO Satellite · the eyes SAR · thermal · multispectral · hyperspectral — surface proxies, not ore assay. Brokered tasking; no owned hardware.	LAYER 02 · AI Consensus · the swarm Eight-engine consensus, dissent preserved. Population agent-swarm scaling is Phase 2.	LAYER 03 · INTEL Corridor · the lens Twenty-five years of Indo-Pacific corridor knowledge, compounding daily — the uncopiable last mile.
---	---	--

The components are commoditised and open-source. **The orchestration that fuses them — and the Indo-Pacific critical-minerals domain it runs on — is the defensible space. That is the moat.**

FIVE DOMAINS — ONE ENGINE, FIVE VERTICALS

CRITICAL MINERALS	GOVERNMENT	DEFENCE	AGRICULTURE	INFRA & RESOURCES
--------------------------	-------------------	----------------	--------------------	------------------------------

The engine in one path: MOFCOM posts a dysprosium quota cut, 2am AEST → eight engines converge, two dissent on timing, flagged → cross-checked against customs notices and producer filings → **three exposed ASX names, calibrated — in the inbox 72 hours before the wires.**

ENGAGE — START WITH ONE QUESTION. CLIMB ONLY IF IT EARNS IT.

Free first Insight or Audit — one pain point, solved on us	A\$0
72-Hour Brief — one corridor question, sourced & calibrated	A\$500
Site Baseline Audit — one named asset, EO + context layer	A\$3,500–7,500
SiteWatch ★ — continuous monitoring per audited asset	from A\$1,490/mo
Standing tiers — Watch A\$99 · Operator A\$1,500 · Pro A\$5,000	to A\$15K+/mo
Sovereign / Government & prime-grade scoping	POA

Month-to-month · no lock-in · founder-direct, every tier · prices indicative, terms set per engagement · research & educational — not financial product advice.

WHO WE SERVE

- ◆ **ASX miners, explorers & commodity desks** — offtake and export-control synthesis, juniors priced out of Bloomberg and Benchmark.
- ◆ **Government, DFAT-adjacent & think tanks** — the sovereignty-execution gap; sourced, sovereign, fast.
- ◆ **Defence primes & the ~3,300 Australian SMEs** — an auditable, exportable layer; no Palantir lock-in, no black box.
- ◆ **Ag-lenders & crop insurers · Infrastructure & resources operators** — a dollar action, not another app to operate.

THE POSITION — STRATEGIC PARTNERSHIP · EXPRESSIONS OF INTEREST

synARKa is **founder-held**; **equity is not for sale beyond 10%**. A long-term **sovereign asset** — not a short-term exit vehicle. Conversations open with a **small circle of strategic investors and operators** who know the Indo-Pacific resources market. **Use of funds:** ship the v1.0 EO pipeline · analyst capacity beyond the founder · Phase-2 swarm simulation and Brier-scored calibration. Terms founder-direct; full method dossier and resolved ledger under mutual NDA. **The first conversation costs 15 minutes — Mon–Fri 1–3 PM AEST.**

WHY THIS FOUNDER, THIS MARKET — THE LAST MILE OF CONTEXT

Raj Singh — Founder & Operator, Sydney. Twenty-five years of Indo-Pacific corridor operations across 38 countries; **Australian** entity active since 2003. **Every engagement is founder-direct** — no junior, no analyst, no account-manager handoff. **Solo, AI-augmented** — the entire stack, live site to delivery tooling, designed, built and shipped by one operator using the same AI leverage synARKa sells.
