Mutual Non-Disclosure Agreement

Between synARKa Intelligence and Prospective Client

1. PARTIES

This Mutual Non-Disclosure Agreement ("Agreement") is entered into between: (a) **synARKa Intelligence**, operating as Artigellence Augmentation Aggregator (ABN 83 988 690 362), of Sydney NSW Australia ("synARKa"); and (b) **[CLIENT NAME]**, of **[CLIENT ADDRESS]** ("Client"), each a "Party" and together the "Parties".

2. PURPOSE

The Parties wish to explore a potential business engagement involving synARKa's intelligence, insight, monitoring and audit services ("Purpose"). For this purpose each Party may disclose Confidential Information to the other.

3. CONFIDENTIAL INFORMATION

"Confidential Information" means any non-public information disclosed by either Party, including (without limitation): the Client's operational data, named assets, watchlists, supply-chain exposure, counterparties and commercial positions; and synARKa's **proprietary architecture, prompt and persona library, consensus-weighting methodology, Social Topology Map, unpublished insights, engagement scopes and pricing structures**.

4. OBLIGATIONS

Each Party agrees to: (a) keep the other's Confidential Information strictly confidential; (b) use it solely for the Purpose; (c) not disclose it to any third party without prior written consent; (d) protect it with the same care it uses for its own confidential information, no less than reasonable care.

5. CLIENT-SCOPED WORK & THE PUBLIC LEDGER

synARKa publishes calibrated insights to a public ledger as part of its method. **Client-scoped work — named assets, watchlists, audit findings and commissioned briefs — is never published or referenced publicly without the Client's prior written consent.** The public ledger carries only synARKa's own general-domain insights.

6. EXCLUSIONS

This Agreement does not apply to information that is (or becomes) publicly known through no fault of the receiving Party, was lawfully known prior to disclosure, or is required to be disclosed by Australian law or court order (with prompt notice to the disclosing Party where lawful).

7. TERM & GOVERNING LAW

This Agreement takes effect on signing and continues for **two (2) years**; obligations for trade secrets survive indefinitely. Governed by the laws of **New South Wales, Australia**.

SAMPLE FOOTNOTE: This document is a watermarked sample for demonstration only — the same structure as what is sent after a discovery conversation. Executed versions are tailored per engagement and may include sector-specific clauses (e.g. security-classification handling for defence-adjacent work, data-residency terms for government). It is not legal advice; each Party should take its own advice before executing.

■ SAMPLE — DEMONSTRATION ONLY · NOT FOR EXECUTION · NOT BINDING · READ WITH THE MUTUAL NDA (PAGE 1)

Engagement Terms

The entry ladder · month-to-month, no lock-in · tailored per engagement · read together with the Mutual NDA (page 1)

1. ENGAGEMENT, SCOPE & FEES

synARKa will deliver [the agreed intelligence scope — e.g. briefs, baseline audits, continuous monitoring, standing intelligence tiers] as agreed between the Parties in writing. Engagements follow the entry ladder below; each step is scoped and agreed before it starts.

STEP	WHAT IT IS	AMOUNT (AUD, INDICATIVE)
Free first Insight or Audit	One pain point, solved on us — the risk reversal	A\$0
72-Hour Brief	One corridor question — sourced, calibrated, inside 72 hours	A\$500
Site Baseline Audit	One named asset — archive EO baseline + geopolitical context layer	A\$3,500–7,500
SiteWatch	Continuous monitoring per audited asset · brokered pay-per-pass	from A\$1,490/mo
Standing tiers	Watch · Operator · Pro · Enterprise — month-to-month	A\$99 – A\$15K+/mo
Sovereign	Government & prime-grade scoping · under NDA	POA

■ PAYMENT, RISK & THE HONEST STRUCTURE

Nobody honest guarantees outcomes — synARKa removes risk structurally instead. The first Insight is free; standing tiers are month-to-month with no lock-in and stop at any time; one-off items are paid up front per agreed scope. Payment is never results-contingent. Prices are indicative; real terms are set per engagement in writing.

■ HONESTY HELD — WHAT SYNARKA IS, AND ISN'T

The word is **insight, never prediction**. Calibrated confidence (25–88%) reflects engine consensus, not certainty; misses are published at equal weight to hits on the public ledger. **Earth Observation surfaces surface proxies — it does not assay ore**; synARKa operates no satellites, tasking is brokered pay-per-pass. Agent-swarm simulation, cryptographic timestamping and Brier-score calibration are v1.0 in active build and are never sold as live. synARKa publishes **research and educational content only — not financial product advice**; synARKa is not an AFS licensee.

2. INTELLECTUAL PROPERTY

synARKa retains all rights in its engine, methodology, prompt and persona library and templates. **The Client owns every delivered brief, audit and report**, for its internal use; public redistribution requires written consent.

3. TERM, TERMINATION & LAW

Standing services run month-to-month and may be terminated by either Party with 14 days' written notice. One-off deliverables conclude on delivery. Governed by the laws of **New South Wales, Australia**.
